

Marco TRS-6100

DIGITAL REFRACTION SYSTEM

new

- Large 10.4" color LCD touch screen
- Intuitive, ergonomic keyboard for simple one-hand operation
- Forehead rest range of 25 ± 2 mm accommodates more patients
- Programmed monocular fogging reduces accommodation & allows more realistic refractions with both eyes open
- OPD Wavefront maps displayed for more effective diagnostics & patient education
- Tilt screen & angled refractor head allows realistic near testing
- A "favorites" page saves frequently used charts for quick & easy access
